	Toslink audio interconnect, male to male	7,5m	600 kr

# Cable. Done Right.

**Safer and better performing cable that's easier to pull.**

We've reimagined every aspect of cable to save you time, increase performance and improve safety. You'll experience smoother, hassle-free installations backed by a company that's focused on doing it the right way. Our prices? Aggressive. And we do it without compromising the cable. The result is more than just cable. It's the future of cable.

**We didn't stop at the box...**

We didn't stop at the box. It turns out there's a lot of ways to improve the cable itself to make it faster and more efficient to install. How'd we do it? Wet Slick jackets that pull easier, EZ Strip Tissue that strips easier, and a whole host of other time-saving features - all built into the cable. Individually, these smooth out the rough edges in the install process. Together, they give you an exceptional installation experience.
